

## THE NEW REVOLUTION.

The LGBTQ+ movement has become more than a movement. In the last few years, it has become a new sexual revolution. The dangers of this revolution, particularly for our children, cannot be overstated. With every revolution comes propaganda. And, if you've been paying the slightest bit of attention, you've noticed that the propaganda is everywhere.

## CHILDREN ON THE FRONT LINES.

No cultural agenda has been as pervasive as this one. The LGBTQ+ agenda only succeeds if all that it stands for is normalized. In order to accomplish this, the proponents of unfettered sexual autonomy have taken a tried-and-true route – our children.

Poll data is already showing that support for this movement increases with every new generation. Children aren't just hearing about it in schools and in children's media; they are being intentionally indoctrinated. So, what do we do?

HOW DO I TALK  
WITH MY KIDS  
ABOUT  
LGBTQ+?

## THERE IS NO SCRIPT.

Unfortunately, there's no one-size-fits-all script to guide parents in broaching a subject none really want to discuss with their children.

However, there are guidelines to help parents craft the conversation for the individual needs of their children.

## LET THEM HEAR IT FROM YOU.

You're setting yourself and your children up for failure if you wait to address it. Don't wait until it comes up – the best defense is a good offense.

## FIND OUT WHAT THEY KNOW AND GO ONE STEP BEYOND.

The conversation will look different for every age range and level of exposure. A 15-year-old in public school needs more detail than a homeschooled 8-year-old. But homeschoolers are being exposed as well. Find out what they are hearing and don't water down your response. Go one step further in your explanation of what LGBTQ+ is.

## STUDY GOD'S PLAN FOR SEXUALITY.

Sex is not taboo. It is part of God's design for creation. The culture doesn't blush when talking with your kids about sex, and neither should you.

Our goal as parents, with regard to culture, is to provide our children with a lens through which to view all of life. That lens is the Christian worldview, and it includes an understanding of sex according to the Bible.

## YOU CAN DO THIS.

Be okay with messing it up. Be okay with sticking your foot in your mouth. Just don't be okay with letting the world teach your kids about subjects you're afraid to teach them.

So, how do you talk to your children about the LGBTQ+ movement? Open your mouth and start talking.
